WATERSPOUT AT SODUS.

Big Four Tracks Washed
Out.

Section Men Flag Morn-
ing Train.

A Full Mile of Track
Inundated.

Damage to Crops Hard
to Estimate.

Sodus township was visited by a general waterspout or cloudburst this morning and as a result the Big Four railway tracks for the distance of a mile were inundated and for several days the roadbed was washed away. The damage was discovered by section men before the morning train was due and a serious accident was averted.

The track of the Big Four was damaged in several places between Eau Claire and Sodus and in one place for a full mile the ballast was washed from the ties and the morning trains felt their way slowly along balancing on the center of roadbed which the water had not washed away. For a distance of several rods the roadbed is completely washed away, carrying with it the track. Section men along the line were called out early and they managed to cross the washout in a few hours. The morning train south was delayed three hours and the train north two hours.

Several railroad bridges were washed away. The country roads about Eau Claire suffered fully as badly as the railroad. It was reported here this morning that the small bridges were washed out about Eau Claire and that the village could be reached only by a single road that escaped damage. Farmers are great sufferers but it is yet too early to estimate the damage. It will probably go into the thousands.

DR. TUTTON'S EXPERIENCE.

So Was in the Thickest of the Storm.

Dr. H. V. Tutton of this city saw the storm. He was called to Eau Claire last night to set a boy's broken leg, and did not return until this morning. The cloudburst occurred just before

daylight and the water came down in a thick sheet. It washed out bridges everywhere and it is the opinion of the doctor that the greatest damage to the farmers will be their increased taxes for new bridges.

On the way out to Eau Claire, when within a mile and a half of the village, the doctor drove into a ditch in the road, where a bridge had been washed out three days before.

The doctor's horse was thrown into a heap, his carriage smashed and he is limping about today as a result. The township can settle the damages without paying court costs.

Washouts Near Stevensville.

The Big Four did not have a monopoly in washouts this morning. The West Michigan road between Stevensville and Livingston suffered eight bad washouts. During the storm a church at Stevensville was struck by lightning.

BOTH ARE CONFIDENT

LAWYERS IN TERRY WILL CASE
DEAD SURE.

BOTH SIDES THINK THEY WILL
WIN.

The arguments in the contest over the will of Mrs. Melissa Terry were made this morning. Attorney V. M. Gore, who is trying to break the will, says he is sure of winning, and Attorneys Cady and Riford representing the library board are even more confident of success. As either side is sure of a victory it is likely that the case will go to the circuit court no matter how Judge Van Riper decides.

Yesterday afternoon Dr. John Bell was on the stand for the contestants. He testified that he was called to see Mrs. Terry from three to ten days after the will was made and he found her insane. He believed, but did not know, that she had been mentally incompetent for some time.

Train on Chicago & Illinois Struck
This Morning.

By Telegraph to Evening News.

Terre Haute, June 3.—Word has just reached here that the Chicago and Illinois freight was struck by a tornado near Watska, Ill. while running at full speed. The wind carried five cars away from the train and blew out two tracks for a distance of sixty feet with a good portion of the road bed. Two cars of barrels and two of heavy lumber were lifted bodily and thrown into the ditch. An empty car was hurled clear off the track.

PACK'S WILL.

He Bequeathes Half of His Estate
to His Wife.

By Telegraph to Evening News.

Detroit, June 3.—The will of the late Albert Pack, disposing of his estate of upwards of a million dollars was admitted to probate this morning.

One half of the estate is bequeathed to his wife, Cora, and the balance equally divided between their two children, Gretchen and Arthur.

The special bequests are a \$250 annuity to his sister Josephine of Detroit and such aid to his brother Herbert in Denver as the trustees may decide.

The will appoints his wife and brother Arthur joint executors with full authority to sell or continue his business. The estate is to be held in trust for ten years, his wife to receive \$10,000 yearly and Arthur \$2,000.

Serious News From Apia

By Telegraph to Evening News.

Apia via San Francisco, June 3.—While the high joint commission deliberates in Apia the Samoan rebels are fixing for a hot fight, building forts and making cartridges. Loyalists are arming and drilling for expected trouble. The white residents feel very serious over the news of the situation. Old papers for sale at this office.

SMALLPOX EXPENSIVE.

Supervisors Think It
Will Cost \$2,600.

Some of the Bills Cut
Down at That.

Family Wants Brussels
to Replace Rags.

The board of supervisors will get through their work at the court house today. The session has not been a long one but the board has transacted considerable business in a way of organization and saving money.

Among the bills presented to the board for payment were those incurred by the recent smallpox epidemic and the way the supervisors are cutting these bills is a caution.

It is evident that some people imagine that all they have to do is to present a bill to the board and it will be allowed.

Harry Ryder, a resident of Water-vliet, members of whose family had the smallpox sent in his claim to the county for payment. The claim was for \$228.50. The first thing in the bill was 35 days nursing family, at \$5 per day, \$175. To 4 days time renovating house at \$5 per day, \$20, making a total of \$195. Then followed a bill for the articles of furniture destroyed making a total of everything at \$228.50. The bill was allowed at \$33.25.

One family sent in a bill for a Brussels carpet at 87¢ per yard. This was not for a carpet destroyed but for a new one bought to take the place of a rag one destroyed.

It is estimated from the bills already presented that the smallpox epidemic will cost the county about \$2,600.

Since Berrien county has been made a judicial district by itself the county clerk has been forced to do much extra work, and this morning the board allowed the clerk \$300 per year as a part payment for a deputy clerk.

DREYFUS INNOCENT.

FRANCE SEES THE TRUTH AT
LAST.

PRISONER WILL HAVE A NEW
TRIAL.

By Telegraph to Evening News.

Paris, June 3.—Capt. Dreyfus will get a new trial. The court of cassation today rendered a verdict in favor of revision and ordered a new court martial at Rennes, 60 miles from Nantes for the trial of the prisoner. The minister of war has received from Maj. Esterhazy a confession of his authorship of the famous bordereau which convicted Dreyfus of selling army secrets.

Esterhazy asks safe conduct to enable him to come to Paris and make an explanation. He is in London where in an interview he says he wrote the Bordereau under orders received from Sandherr.

He says the officers will lie to shield themselves but he has proofs and asserts that he has recently received seductive offers to keep silence from the French officials.

Mme. Dreyfus has been authorized to inform her husband of the revision of his case. She received the authorization with deep feeling, saying she welcomed the hour of justice she never despaired of and awaited the result with absolute confidence.

Train Robbers Got \$36,000

By Telegraph to Evening News.

Salt Lake, June 3.—A special from Rawlins, Wyo., says the robbers that held up the train at Wilcox yesterday obtained \$36,000 and \$10,000 worth of diamonds. A large amount of bills were destroyed by an explosion.

Our Position

It isn't the greatness of this store that makes it worthy. It is easy to find larger ones. But there isn't another that comes nearer to filling the needs of this community than this store does. It studies your wants and meets them. It is a progressive store. You may buy goods cheaper here than in most stores. You can't get worthier goods or fairer money's worth anywhere.

Silken Linings

Half the nattiness of a stylish dress is in the linings. Your dressmaker will tell you as we do, that an up-to-date dress cannot be made with an out of date lining. The very names of these linings suggest richness: "Near-silk," "Satin Superb," "Super Satin Antique." They are all the names imply. Natty silken substitutes in pretty silken styles.

OUR POPULATION.

WHAT WILL BE SHOWN BY THE NEXT CENSUS.

It is Believed That a Grand Total of Nearly Ninety Millions Will Appear—These are Magnificent and Alluring Figures.

With the appointment of the commissioner of the census of 1900 speculation begins as to the population the enumerators will find in the country when they finish their work next year. As usual large figures are being made and a great increase is claimed over the population given in 1890. One estimate now going around is based on the guesses of the governors as to the population of the different States and territories January 1, 1899. The total on that date is placed at 77,983,363, and, adding the proportionate increase between now and June, 1899, it is claimed that the United States proper will have in 1900 about 80,250,000. Adding the estimated population of Hawaii, Porto Rico and the Philippine islands and a grand total of 89,250,000 is found.

This is a magnificent and alluring figure. If realized it would show a growth of nearly threefold since 1860, or in forty years. It is extremely doubtful, however, if any such total is reached. The addition of 9,000,000 for the population of Hawaii, Porto Rico and the Philippines is probably not too large. It gives 1,000,000 less people to the Philippine islands than many good authorities claim, and it would not be surprising if the total additions to the population of this country made by the war with Spain would aggregate 10,000,000. But the estimate of 80,250,000 as the population of the United States proper in 1900 is undoubtedly too large by several millions. It would mean an increase of 17,400,000 since 1890, or about twenty-seven per cent., a much larger increase than was shown by the last census.

Such an increase is improbable. There is no evidence to show that the country has grown at a more rapid rate since 1890 than it did during the decade between 1880 and 1890. The growth which it was expected the census of the latter year would show was not realized. Expectation had been based on the percentage of increase between 1870 and 1880. But the large increase shown in the latter year, it is now acknowledged, was due to the defective census of 1870. The more accurate census of 1880 gave a large increase over the previous census and created the popular dissatisfaction with the census of 1890. But no facts have since come to light to show that the last enumeration was not full, accurate and complete. Every census made by States during the past eight years has tended to prove the correctness of the census of 1890.

Some light is thrown on the size of the population which will be found in the country in June, 1900, by the State censuses taken in 1895. The following table gives the returns from nine of these States:

States	1890.	1895.
Massachusetts	2,228,943	2,495,315
Rhode Island	345,506	384,758
New Jersey	1,444,933	1,672,942
Michigan	2,092,889	2,241,454
Wisconsin	1,686,880	1,931,905
Iowa	1,911,896	2,058,069
Minnesota	1,301,826	1,574,910
Kansas	1,427,096	1,334,668
Oregon	313,767	362,762

It will be seen by this table that Minnesota and Wisconsin are the only Western States which made large gains between 1890 and 1895. The first State gains about twenty per cent. and the latter about fifteen per cent. Michigan's census was taken in 1894, but its gain is only seven per cent., and Iowa's is about the same. Kansas loses and Oregon gains about eleven per cent. The most surprising gain made is in New Jersey and Massachusetts. The former State increased about fifteen per cent. between 1890 and 1895 and the latter State over eleven per cent. in the same time. Rhode Island also showed an increase of eleven per cent. in its population. The average growth in these nine States in the five years from 1890 to 1895 was about ten per cent. If it is the same between 1895 and 1900 the average per cent. of growth over the United States proper would be twenty per cent. for the decade between 1890 and 1900, or an increase of about 12,500,000. This added to the 62,622,250 population in 1890 would indicate a population of about 75,000,000. Adding 9,000,000 for Hawaii, Porto Rico and the Philippine islands and a total population of 84,000,000 appears, or 5,000,000 less than the sanguine predictions.

This will probably be the extent of the growth in population the next census will disclose. The real surprise the enumeration will make to the country will probably be the discovery that the East, South and middle West have grown more rapidly than the trans-Mississippi States. The percentage of gain in the latter, with the exception of one or two States, will probably be found to have fallen off. This is not a discouraging fact, and it will not be surprising if the same tendency is shown in the censuses of 1910 and 1920. The far West will have to wait until the waste places in the East and South are filled up.

His Plea Didn't Save Him.

A London bookseller has just been sentenced to nine months' imprisonment for selling indecent French books, in spite of his counsel's plea that a book in a foreign tongue could not corrupt the morals of her majesty's subjects. Though this was the first successful prosecution on record where the book was not in English, the court would not allow an appeal.

HE STOPPED A SERMON.

Brignoli Came Late to Church and Wanted the Star Part.

Brignoli was very susceptible to flattery, and it is said that once in New York, when the orchestra vigorously applauded one of his favorite songs, he was so touched that he came down to the footlights and invited them all to a champagne supper at the Everett house. The supper cost him \$500. Brignoli was very careful of his voice, and was terribly afraid of drafts. It was once stated that during the winter it always took him three-quarters of an hour to get from his room to the street. First, he would leave his room, pace the hall for ten minutes to get acclimated. He then descended to the lobby, where the temperature was a little lower, and spent twenty minutes there. He then ventured to the vestibule from which the door opened into the street. He would parade the vestibule for fifteen minutes, occasionally opening the door to let in a little cold air. Being now accustomed to a cool temperature, he would button up his coat and sally forth.

He once agreed to sing a solo at St. Agnes' church, New York city. He came in late and after divesting himself of many coverings, tumbling over music racks and exasperating the choir by trying his voice, he came to the conclusion that he was ready. By this time, however, the sermon had commenced, but Brignoli, unabashed, leaned over the choir railings and tried to attract the attention of the preacher by shaking his head and gesticulating with his hands. At last he called out in a voice which was audible for some distance, "Me ready for ze sing! Stoppa ze preach! Stoppa ze preach." And the priest actually cut the sermon short in order to accommodate the impatient tenor, whose voice now rang out with such fervor as to thrill the worshipers and justify the sacrifice.—The National Magazine.

Saluting a Phonogram.

It will be remembered that Queen Victoria spoke a message of friendship and good will to the Emperor Menelek, of Abyssinia, after the recent victory in the Soudan. The message created a marked impression on his Majesty. The royal words were delivered on a Sunday, the phonograph working excellently. The tones of her Majesty's voice were reproduced with remarkable clearness, and Menelek was so pleased that nothing would satisfy him but to hear the message at least a dozen times. First he would listen to the words as they came from the trumpet of the phonograph, and then he would use the ear tubes. When his curiosity and delight had been satisfied, he relapsed into solemn silence, and ordered the royal salute and remained standing while seventeen guns were fired. Menelek himself has tried to send a message by the phonograph, so that he appreciates the difficulty of securing a satisfactory record.

Mexico's Sign Language.

Mexico is a land of many tongues; but above the Indian dialects and Spanish, there is one universal language, the language of signs. It is the most expressive of all; the Mexican eye and hand are eloquent members. It is capable of infinite variation; its shading and suggestions are beyond all translation. But there are certain gestures that have a fixed meaning, a signification well understood by every nation and every tribe from Guatemala to Texas, says Modern Mexico.

A general upward movement of the body, shoulders shrugged, eyebrows raised, lips pouted and palms outspread, varies in meaning from "I don't know and I don't care," to a most respectful, "Really, sir, I do not understand you."

The index finger moved rapidly from right to left, generally before the face, means, "No more," or simply "No." To move the right hand palm outward from the body toward another person means "Just wait; I'll be even with you yet."

The index finger on the temple, moved with a boring twist, means "He's drunk."

The right hand held to the lips, three fingers doubled, thumb and little finger erect, varies from "He drinks" to "Have one with me."

To move the open hand over the cheek in imitation of a razor has reference to the idiom "playing the barber," and means "to flatter."

All four fingers and the thumb held points together and moved toward the mouth means "to eat."

The right hand held before the face, the two middle fingers moving rapidly, is a familiar salutation.

First Cantilever Bridge.

What is said to have been the first cantilever bridge in existence is the Kintai bridge, near the station of Iwakuni, on the Sanyo Railway in Japan. This bridge was built some 240 years ago by Daimio, the governor of the province of Suo. The bridge extends across the Nishikigawa river and is famed throughout western Japan. It consists of five semi-circular wooden arches of 150 feet clear span each. The piers of the bridge are 33x18 feet in plan, the stones being cemented by poured lead. Each span is formed of five wooden girders imbedded in the masonry of the piers and extended length by length toward the centre and held together by iron bolts. The spans at centre are eighty feet above the water.

In the repairing of this bridge it has been the custom to renew one of the arches thoroughly every five years, so that once in twenty-five years the whole structure has been renewed. The structure is attractive from an engineering standpoint and many travelers go each year to view this ancient but durable piece of bridge building.

THE EVENING NEWS.

FOURTH YEAR—NO. 1135.

BENTON HARBOR, MICH., SATURDAY, JUNE 3, 1899.

TWO CENTS.

THE WHOLE THING

Senator Hanna Surprised Them
All at Columbus.

Cox, the Cincinnati Boss
Helps Hanna.

Columbus, O., June 3.—Mark Hanna is still a ruling force in Ohio politics. In the republican state convention yesterday, despite Thursday's prospects of a successful combination against him, his candidate for governor, Judge Nash, was nominated on the second ballot, receiving 458 votes, while Harry M. Daugherty, the next strongest man, was able to count but 205. The rest of the 813 votes were divided among the other six candidates for the nomination.

Those republicans who were looking forward to the platform of the Ohio republicans as a "keynote" which would enable them to get an idea of President McKinley's future Philippine policy will look in vain. It was thought the president might use the conven-

have shaped the high destiny of the republican party from Lincoln to McKinley, the people can safely commit the solutions of the momentous problems of the future of Cuba, Porto Rico and the Philippine Islands. Their solution will vastly increase our foreign trade, spread American civilization abroad and add to the honor and power and glory of this great nation.

We commend the president for the judicious modifications of the civil service rules, recently promulgated; for the national defense, for the reinforcement of the navy, for the enlargement of our foreign markets, for the employment of American workmen in the mines, forests, farms, mills, factories and shipyards; we demand the immediate enactment of legislation similar to that favorably reported to each branch of the fifty-fifth congress at its last session, so that American-built, American-owned and American-manned ships may regain the carrying of our foreign commerce.

We commend the action of the seventy-third general assembly of Ohio in passing the stringent law now on our statute books prohibiting the organization of "trusts," and we denounce such unlawful combinations as inimical to the interests of the people.

We congratulate the people of the state upon the fact that a republican legislature enacted this law and we demand its rigid enforcement.

We pledge our party to such further legislation as experience may determine necessary to prevent the formation and operation of such iniquitous and dangerous combination.

Other resolutions recommend laws for equalizing taxes, uniform system of selecting delegates for state conventions; protest against lynching and strongly favor the Ohio centennial at Toledo in 1902.

OFFICERS ELECTED.

Presbyterian Christian Endeavor Meeting Last Night.

The Senior Christian Endeavor society of the Presbyterian church elected the following officers last night:

President, Gerlie Niemeyer; vice president, Alice Spencer; corresponding secretary, Florence Hoffman; secretary, Louise Bailey; treasurer, Harry Laughman; organist, Zoe McCuire; assistant organist, Helen Webb; chorister, S. A. Bailey; collector, Alice McCord; ushers, Mr. Lee, Almsworth Bailey, D. Ruth, Agard Bailey.

The following officers for the junior society were appointed: Junior superintendent, Reinder Niemeyer; junior organist, Mary B. Woodruff; junior chorister, Johannah Niemeyer.

Picture of the Ohio republican convention which convened at Columbus yesterday.

tion of the republicans of his own state as a means to indicate his ideas at least in regard to the eastern problem. But the platform contains no specific declaration on this subject. It simply indorses the past acts of the national administration, and the speeches made practically ignored the question altogether. The democrats say the republicans of Ohio straddled the Philippine question as they did the money issue four years ago.

Senator Marcus A. Hanna and George B. Cox, the republican boss of Cincinnati, manipulated the wires which landed Judge Nash and gave the nomination for lieutenant-governor to John A. Caldwell, ex mayor of Cincinnati. The deal was not made until two hours before the convention was called to order, although Mr. Hanna knew that Mr. Cox's eighty-six delegates were all neatly done up in a handy parcel quite convenient for delivery.

Mr. Cox's price for the delivery of his delegates was the nomination of Mr. Caldwell for lieutenant-governor. But it is believed that as a result of the new Hanna-Cox combination Mr. Cox will get for Cincinnati a good share of the federal positions released from the civil service list by President McKinley last Tuesday. The new deal lifts George B. Cox into national politics, and republican politicians here say that Senator J. B. Foraker has been superseded by the Hamilton county boss.

The Platform Adopted.

The following platform was adopted: The republican party of Ohio reaffirms the principles declared by the St. Louis platform.

We earnestly indorse the great administration of William McKinley. It is distinguished to a remarkable degree in the history of the national administrations. Under the last democratic administration, and as a result of the democratic principles and policy, our industries were destroyed, capital and labor were unemployed, the poor suffered as never before in our history, agricultural products could not be sold because consumers could not earn money with which to buy, and every branch of the trade felt the lightning influence of the democratic tariff reform hard times; the treasury of the United States was depleted and the gold reserve disappeared; the government borrowed money to pay current expenses, increasing the public debt in times of peace by hundreds of millions of dollars.

The democratic party proposed to the people as a remedy for all these democratic ills a depreciated and dishonest currency, which intensified every evil.

During all that period of depression and distress, the republican party stood fast for the principles and policies under which American industries had been built up and had flourished beyond example—the principles and policies under which the people had prospered and the nation had grown great for a generation; stood fast for a sound and honest currency, and in 1896 elected to the presidency William McKinley, the best exponent of republicanism and true American ideas and policies, the friend of every American industry and the wise and patriotic defender and advocate of honest money.

The next plank gave the republican administration the sole credit for successfully carrying on the late war, and of the future matters growing from the war says:

To the same master guidance, controlled by the great principles that

CHAMPION BOXER SPEAKS
HIGHLY OF BATHS.

Sadow Snyder, the champion bantam weight boxer of Michigan, is stopping at Hotel Benton and also taking advantage of the mineral baths and good training grounds surrounding Benton Harbor preparatory to his fight with Sig Hart of New York which takes place at the Star theatre, Chicago, June 16.

Snyder has fought one draw with Hart and gained one victory over him; also drew with Jimmy Barry, the retired Bantam weight champion of the world.

E. A. McAuley, proprietor of the Hotel Benton bar is entertaining Snyder and will second him in his coming battle, he having been manager for Snyder some time. William Barton has charge of Snyder's training.

Snyder visited THE NEWS this morning and says the Benton Harbor mineral baths are superior to the baths at Mt. Clemens and that he will make this city his training headquarters hereafter.

ON THEIR TRAIL.

Democratic Organ Roasts Benton Harbor Aldermen.

The Benton Harbor Times, the organ of the Altgeld democrats, roasts the city aldermen because they voted the city's cash to put down the brick pavement on North Water street, near the docks. The Times claims, and there is reason in the contention, that the owners of the abutting property should have not only bought the material but also put down the paving. The paper then jumps into the aldermen in the following Wild Bill fashion:

"But what else can you expect from a council composed of the following: One man, one horse doctor, one glutton, one sucker, one Chinaman, one berry man, a dude and two business men."

It would be a good advertising dodge for some business man to offer a prize for the first correct solution of the Chinese-glutton-sucker puzzle.

"To Throw Good Money After Bad will but increase my pain." If you have thrown away money for medicines that did not cure, now begin taking Hood's Sarsaparilla, the medicine that never disappoints.

Hood's Pills cure sick headache, indigestion.

NOT A PERSONAL MATTER.

The News Meant No Disparagement of Supervisor Talmage.

In yesterday's issue of THE EVENING NEWS the action of Chairman Stemm of the board of supervisors was criticised for appointing old fighters on the board as members of the committee on equalization from St. Joseph and Niles and putting a new man on from Benton Harbor. The Benton Harbor member of the committee mistook the point that the criticism intended to raise and has written the following letter:

EDITOR EVENING NEWS: I am more than surprised at the unwarranted stand you have taken against me in last evening's paper. I will refer you to my work on the last board of review or the city attorney as to my inability to be a member of the board of equalization. If you can show where I merit this personal attack I will submit and stand corrected. It is not to late to make the change and if you think it would be better for the people I will make an effort to be excused from that committee. Respectfully yours, JAMES TALMAGE.

Supervisor Talmage of the fourth ward has thus far made an excellent record, but as this is his first year on the board it is not to be expected that he could make as strong a man on the equalization as though he had had the experience of several terms, the same as the other members of the committee have enjoyed.

THE NEWS has made no attack upon Mr. Talmage but it believes that next year he will make a better supervisor than this year. Experience in the peculiar work of the board ought to improve any man as a supervisor.

WILL MEET IN SECRET.

Michigan Congressmen Will Confer in Middle of Lake St. Clair.

Detroit, June 3.—The twelve members of Michigan's republican delegation to the fifty-sixth congress will meet in this city on Wednesday for the double purpose of celebrating the birthday anniversary of Congressman Corliss of Detroit and settling upon their united action as regards the speakership. While no member of the delegation will talk for publication, Michigan will undoubtedly favor a Western candidate and stand with Wisconsin, Minnesota and Iowa in favor of Henderson of Iowa.

The delegation, for the sake of secrecy, will hold its meeting on a private yacht in the middle of Lake St. Clair. The attitude of the ticket brokers in the state in condemning Congressman Sherman is having its effect, and while he is personally popular with the old members, he will not have one vote of the twelve.

The Michigan delegation is unanimously in favor of voting as a unit. One member of the delegation, Rev. Washington Gardner, gave his personal pledge to Hopkins of Illinois, but qualified it with the understanding that it should not bind him in case the unit rule was ordered by the caucus, and Mr. Hopkins will lose his vote.

SAM T. Jacks, the variety show man, has left a fortune valued at \$25,000 and bequeathed it to his wife on the condition that she marries his brother. Such a will ought to be considered a surer sign of insanity than though Sam had lopped off his bangs.

WHEN Berrien county became a separate judicial district the work of the county clerk was largely increased and the board of supervisors did a just act when they allowed clerk Needham a deputy. In Illinois each county hires two clerks—one known as the county clerk and the other as the circuit court clerk.

WHEN the Benton Harbor aldermen read this week's issue of the democratic organ they will offer thanks for the enemies they have made. Last year the Times criticized the republican organ for abusing a democratic mayor without reason but now the Times is doing just what it condemned in a neighbor. And still Editor Jarvis counts consistency chief among his many virtues.

THE success of Judge Nash in the Columbus convention was secured by a tricky deal between Hanna and Cox, the Cincinnati boss. When it appeared that Kurtz, the anti-Hanna boss, was making a deal with Cox, who held the balance of power, the administration papers held up their hands in horror and cried "Unclean, unclean." The same papers now rejoice because "clean" politics won.

EX-President Cleveland took a fishing trip in Connecticut yesterday and was ordered off the stream by the owner of the premises. Mr. Cleveland took his rod and departed but later the owner of the pond learned how he let slip the opportunity to "entertain an angel unawares." The farmer consoles himself with the thought that he was a candidate for the village post-mastership and President Cleveland gave the job to somebody else. "We are even now," the farmer remarked later to some friends.

\$5 PER TON.

Senators Name That Price for Sugar Beets.

Lansing, June 3.—The senate has dealt beet-sugar manufacturers a blow by passing a bill increasing from \$4 to \$5 a ton the minimum price paid to the growers for beets containing 12 per cent of sugar.

The house passed to third reading a bill levying a specific tax of 2 cents a ton on iron ore and a graduated tax of from 1-16 to 1 cent a pound on copper, the tax being based on the output of the respective mines. This bill will increase more than tenfold the taxes of copper companies, and will make the tax of the Calumet and Hecla about \$900,000 a year.

Other tax bills passed by the house levy a tax of 5 per cent on the gross earnings of express companies and 3 per cent on the gross earnings of telephone and telegraph companies.

One Who Knows.

A Philadelphia Physician, Like a Philadelphia Lawyer, Is Noted For Wisdom.

W. R. D. Blackwell, M. D., 858 North 28th street, Philadelphia, Pa., writes to the Buffalo Medical Journal this interesting article:
"Years ago I had a call from the representative of a firm making malt extract. I told him that, in my opinion, no thin extract of malt was any good. He simply waited until I got through with my talk on the subject, and the next day sent to several hospitals that I had named him, a few cases of his preparation. He also sent me a quantity, and I found it to be the very best malt extract which had ever come into my hands, and since then I have stuck to it. This 'best malt' is known to the trade as The 'Best' Tonic—Pabst Malt Extract. It is a long time since I first came into the knowledge of this excellent brand of malt, and it will be an equally long time (if I live) before I will give it up for any other. I believe in The 'Best' Tonic as being the best; no punning being intended. It is not acid or sour, as too many of the brands are. It 'sets' well on the stomach in weak ladies who reject the ordinary malts. It keeps well, also, which is an item of moment. It is economical in cost, and is pleasant in taste. Such characteristics ought to make doctors try it, if you don't already know its merits, and such of my readers as have not yet invested in it would do well to find out for themselves what it really is, and I am sure that they will not be disappointed when they do."
What this Philadelphia doctor has said is an old story with those who are

familiar with Pabst Malt Extract, The "Best" Tonic.

If you have been sick, this tonic will help you to recover your health and strength. It will put new flesh upon you, brace up your revivify the whole system. It feeds blood, brain, nerves and bone. If one of your loved ones is ill, and is growing thin and weak, The "Best" Tonic will give him new strength and keep up his spirits. It is easily digested, and is full of the very best nourishment in concentrated form, food for both the body and the nerves. If pale and anemic, it will give rich, red blood, and plenty of it, and will help to bring glowing cheeks and sparkling eyes. If nervously exhausted, it will brace you right up, give you vim and bounce. It is a boon to every nursing mother, and supplies the right nourishment for both herself and her baby. It brings strength to the invalid, creates a good appetite, helps to cure dyspepsia, and will go far to insure sound, refreshing slumber to all those who suffer from wakefulness from any cause.

How many "pretty-featured" girls and women lose all their charm and attractiveness by being pallid, sallow and gray, as if all the blood in their veins were turned to skimmed milk! Even when riding a bicycle, playing tennis or golf, or taking other pleasant exercise, their eyes are still dull and lifeless, no flush beautifies their cheeks, and the air of languor and lassitude makes them "sickly o'er with the pale cast of thought," or else, like Cassius, have a "lean and hungry look." These disagreeable features are the outcome of anemia, a wasting out of the corpuscles of the blood, thinning down of the vital fluids, until a person is weak, emaciated and unhealthy looking. The antidote to this unpleasant condition, however is at hand. Pabst Malt Extract, The "Best" Tonic, is an immediate and visible help in making a soft, glowing color, a splendid appetite, a power to digest and assimilate the food, and turn it into fine, pure, healthful blood. Don't look so faded out and limp when you can easily look sweetly strong. A few bottles will show you what it can do.

THE DEWEY CANNON.

THREE OAKS MAKING A DESPERATE EFFORT FOR IT.

The village of Three Oaks is making a desperate effort to secure the Dewey cannon. A mass meeting was held on Tuesday and over \$1,100 raised. The president of the village, E. K. Warren, the next day sent the contribution to New York accompanied by the following letter:

"Three Oaks, Mich., May 31, 1899.—George J. Gould, Treasurer National Monument Committee, Western Union Building, 195 Broadway, New York. Dear Sir: Inclosed please find draft for \$1,132.80, the contribution of the village of Three Oaks toward the national monument in response to your committee's request to hold Dewey day services and compete for the cannon. We held a very fine Dewey day service last evening. Our town hall was especially decorated for the occasion with bunting and electric lights and a very fine program was carried out, several speakers addressing the meeting. The hall was filled to overflowing and large numbers had to go away who could not find entrance. We continued the circulation of the subscription papers today and closed tonight with 312 names on the list and the \$1,132.80 as the result. Of course you can see we have made a desperate effort to win the cannon. We sincerely trust that our hopes are well founded."

At the mass meeting the following original song was sung by Messrs. Smith and Jones of Gallien and Milham and Chamberlain of Three Oaks:

The cannon is coming, is coming they say,
The cannon is coming some glorious day,
The cannon is coming, hooray! hooray!
Brave Dewey's brass cannon is coming to stay

CHORUS:
The cannon is coming, O ho! O ho!
The cannon is coming, O ho! O ho!
The cannon is coming to Three Oaks they say,
The cannon is coming, hooray! hooray!

We'll welcome the cannon with music and song,
We'll welcome the cannon with cheers loud and strong.

We'll welcome the cannon, the word pass along,
Brave Dewey's brass cannon to us shall belong.

CHORUS:
The cannon is coming, O ho! O ho!
The cannon is coming, O ho! O ho!
The cannon is coming to Three Oaks they say,
The cannon is coming, get out of the way.

NOTHING IS BETTER.

Impossible to Manufacture a Better Remedy.

Michigan People Make Good Witnesses of the Success it Has Achieved.

There can be nothing better for backache, nervousness, sleeplessness and all ailments arising from kidney disorders than Morrow's Kid-ne-oids. It is impossible to manufacture a better kidney remedy. Kid-ne-oids contain the very best ingredients that are good for ailments arising from the kidneys. The vast number of people in this city who have testified to the merits of Kid-ne-oids is sufficient proof that none of our claims are false.

Mrs. Jason Rogers, 704 Main St., Ann Arbor, Mich., says: "I have suffered for the past two years with a disordered condition of the kidneys, also severe backache, nervousness and sleeplessness. I was induced to try Morrow's Kid-ne-oids, and was more than pleased to find decided relief inside of two days' time. The backache is gone, my nervous system is strengthened and I can sleep well. I can cheerfully recommend Kid-ne-oids to all who are afflicted as I was."

Morrow's Kid-ne-oids are not pills, but Yellow Tablets, and sell at fifty cents a box at all druggists and at Lowe & Witherspoon's drug store.

Mailed on receipt of price. Manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

PROFESSIONAL EVIDENCE

DR. CARISBROOKE, A. M., M. D.

"However skeptical I could hardly close my
eyes to the favorable results obtained. I wrote
a paper about this remedy (Johnson's Kidney
Pills). In this paper I took the ground that the
remedy was well worthy of a trial. Was curious
to learn whether other physicians would get as
good results. Since that time I have had a num-
ber of grateful letters, the first in my experience
in treating DIABETES. I am better than in
youth, writes one man. 'It has been a God-send'
says another. 'A thousand thanks,' says a third.
Two of the most striking instances of immedi-
ate relief or cure have occurred within the last
two months. One, a typical case of Diabetes,
with hunger, thirst and an abundance of sugar
in the urine, is already cured after four weeks'
treatment with nothing but Johnson's Kidney
Pills. Many of the patients treated successfully
with this remedy had previously resisted the
action of the regular drugs."

Johnson's Kidney Pills are prepared at 4
Johnson Laboratories, Inc., Philadelphia, and
are for sale by all druggists. Large box 50 cents.

In a collection of garters in England
there are some 200 examples, classified
into two sections—the curious and the
historical. One of the most interest-
ing of the latter class is a faded gar-
ter of green silk, sewn with a design
of hearts and diamonds in gold thread,
which is reported to have belonged to
the famous Miss Stewart, one of
Charles II.'s favorites. Another inter-

embroidered with silver thread and
having paste buckles in the shape of

Only two rulers of Russia since Peter
the Great have died a natural death—
Catherine II. and Alexander III., the
father of the present Czar.

Domestic industries, the products of
the farm-house and the cottage, are a
source of national wealth hitherto over-
looked in America, although in other
countries much of their commerce is
based upon them.

Kipling has but one sister, now mar-
ried to an English army officer in the
staff corps stationed somewhere in In-
dia. She is a great beauty and fami-
liarly known as "Tricksey." She is a
very clever woman and has written
considerable.

Nebraska's Populist senator, William
V. Allen, who has retired from Con-
gress, will be chiefly remembered for
his famous fifteen-hour continuous
speech in the Senate, and for the inno-
vation of making a valedictory address
to his colleagues.

A Belfast (Me.) citizen reports him-
self as the champion absent-minded
man. He got the fire in the kitchen
stove running nicely the other morn-
ing; then went to the well, drew a pail
of water, brought the water in, and
poured it into the stove.

While digging along the shores of
Cedar Swamp creek, near Petersburg,
N. J., a few days ago, Penn Baner un-
covered a large Indian canoe. The
canoe was nearly sixteen feet long,
over five feet wide, and the red cedar
from which it had been cut must have
been a monster tree.

Mrs. Richard King, of Texas, is prob-
ably the richest woman in the United
States, not excepting Mrs. Hetty Green.
Her wealth is partly inherited from
her father, a pioneer Presbyterian
clergyman, the first who ever went
staff and Bible in hand to preach the
gospel to the Indians and mixed races
that peopled the vast domain over
which his own little daughter was
destined to hold sway as a landed pro-
prietor. Mrs. King is a widow, and
her landed estates in Southern Texas
amount to 1,360,000 acres, or about
2,000 square miles.

An order was issued today establish-
ing a postoffice at Meyers, Monroe
county, with Charles J. Meyers as
postmaster.

The Detroit & Mackinac railroad
company has raised the wages of its

Benjamin Cooper, one of Dowagiac's
oldest and most influential citizens,

identified with the city's improvements.

Newaygo workmen while engaged in
removing the old buildings on the
river front preparatory to the erection
of a new cement works, found secreted
in a garret the skeleton of a child ap-
parently just born. There are various
rumors regarding its parentage, and
the village is wild with gossip.

The Pottawatomies of Case and Van
Buren counties are holding a council
at Toquon to elect a chief and advisory
council of five to push their Chicago
claim. A constitution and by laws
similar to one signed by Pokagon's
band sixty years ago will be signed.
This was written by a Chicago man,
and is a complete document.

The following Michigan postoffices
which have heretofore had limited
money order privileges will, after July
1, be raised to full money order offices:
Barker Creek, Beddon, Betzer, Browns-
ville, Eastmanville, Fishville, Herrington,
Oakfield, Carter, Rollin, South
Butler, Unadilla, Walnut, Wheatland,
White, Wiley and Williams.

Mrs. Bruce, the Dundee woman who
submitted to an operation last week
for cancer, and in which operation one-
half of her stomach was cut out and
the remaining part sewed together, is
improving rapidly in health. She is
now able to eat food and retain it upon
her stomach, or rather that part of her
stomach which is left. It was a most
successful operation.

Michigan pensions were granted
Thursday as follows: Original—Will-
iam A. Story, Williamsville, \$6; Perry
Mayo, Marshall, \$8. Increase—The-
odore Miller, Petersburg, \$10 to \$12;
William Walz, Marshall, \$6 to \$8. Re-
issue and increase—Joseph D. Daw-
dowagiac, \$8 to \$12. Original, widows—
Ellen L. Woodworth, Petoskey, \$8;
minors of Napoleon Goldsmith, Three
Rivers, \$12.

Day Terbush, one of the richest
farmers of Oakland county, was swin-
dled out of \$5,000 yesterday by two
men who, representing themselves as
real estate agents, offered Terbush at
a low price some land he was desirous
of getting. Terbush agreed to the
purchase. The swindlers proposed
that they put up \$10,000 against \$5,000
furnished by Terbush, to guarantee
the consummation of the deal, the
farmer to hold the money. Terbush
drew \$5,000 from his bankers and the
swindlers apparently dumped it into a
grip said to contain their \$10,000. The
farmer started home, where he opened
the grip and found nothing but old
paper.

Nearly 33 years' continuous service
carrying the mails to and from trains
in the city of Adrian for his Uncle Sam
is the record to which Myron McRob-
erts, Sr., of Adrian, points with pride.
"Doc" Smith, the present postmaster,
has taken great interest in the wel-
fare of the veteran McRoberts and has
caused a number of changes to be made
in the postoffice for his convenience.
McRoberts has driven in the 33 years
175,000 miles, equivalent to driving
around the globe seven times. Mr. Mc-
Roberts is hale and hearty, and in all his
career never missed a mail train nor had
a check reported against him. His
seventy-fourth birthday, next October,
will be a fittingly celebrated by his
mail friends.

ABSURD ON THEIR FACE.
Every one of the strong points in
regard to Alabastine, the unequalled
wall coating, that has been proved to
be such by the test of twenty years,
is picked up by every new manufac-
turer of ordinary kalsomine and
claimed for his goods. These claims,
on the face of them, are ridiculous,
but it will take a householder who
uses these goods perhaps two or three
years to find out that he has gotten
nothing but a temporary kalsomine;
and by that time the particular man-
ufacturer may be out of the market.
Alabastine is the only material that
can make the claim of durability and
substantiate it by actual time tests.
This phenomenal wall coating is
adapted to all grades, from the most
elaborate free-hand modeling with a
machine to the cheapest plain tinting
and whitening, and requires only cold
water to mix it for use. It never
needs taking off to renew, hustles out
house pests, sweetens apartments,
and fills cracks.

A BIG SHIPMENT.

About 15,000 Cases of Berries Shipped Last Night.

Last night nearly 15,000 cases of strawberries were shipped to Chicago and Milwaukee from the two cities. The Chicago boats took 4,500 from Benton Harbor and about an equal number from St. Joseph.

The steamer Lawrence took 4,315 cases of berries to Milwaukee 2,840 from this city and the balance from St. Joseph. The steamer brought over a deck load of freight from Milwaukee on yesterday's run.

TROUBLE AT THE DOCK.

O'Connor Company Complained of for Dock Lapping.

Last night the steamer A. B. Taylor made her second trip to Chicago for the O'Connor transportation company.

The steamers Taylor and Lawrence occupy adjoining docks. The Taylor arrived here first and tied up lapping over the dock of the Lawrence. When the latter steamer arrived she had to tie away from her loading place and it required 40 instead of 20 men to put on the big load of berries.

The owners of the Lawrence reported the matter to the harbor master who looked over the ground and told the O'Connor company not to tie their boat in that position again. A lively scene ensued and the nearest the jangle came to serious trouble was when Mr. O'Connor informed the harbor master that he weighed "160 pounds."

COFFEE COMPLEXIONS.

Skin Usually Clears up After Leaving off the Beverage.

In this country people are very much addicted to the use of coffee, and to that, perhaps more than anything else is attributable the dark, muddy complexions.

Mrs. J. L. Stiles, a teacher, was pale, weak, thin in flesh, wakeful, dyspeptic and trembling on the verge of nervous prostration. She discovered that the cause of it all was coffee, and the way she discovered it, was by discontinuing its use altogether, and taking in its place, Postum Food Coffee exclusively.

She got so well and got well so quickly that she knows exactly what caused the change. Now she advises all her friends to use Postum, and is so enthusiastic about it, that she sends printed notices of it in her letters to them, and warns them to be sure and have it made right. You already have an account of my bitter experience with coffee drinking. Caroline A. Jones, Houston Heights, Tex.

American Board of Claims Size Up Cubans.

By Telegraph to Evening News.

Washington, June 3—The army board of claims to examine the Santiago Cubans claims have reported to the war department calling the Cubans cruel and cowardly. Ninety-five per cent of the claims were conceived in dishonesty and supported by unblushing falsehoods. The demands were absurd and the witnesses ready to swear to anything.

DEWEY'S HEALTH

MODEL BANQUET.

High School Alumni Gave it Last Night.

The High school alumni of St. Joseph gave a most charming banquet to about 200 guests at the Hotel Whitcomb last evening.

L. C. Fyfe was toastmaster of the evening and toasts were responded to by Willis Stephens, Howard Shepard and Russell Brady and Mrs. O. O. Jordan and Miss Edith Wallace.

During the banquet Green's mandolin orchestra furnished music and in the program the Misses Hansen rendered a trio, accompanied by Prof. Fred H. Null; Mrs. John Needham a piano solo and Mrs. Charles Stone a vocal solo.

It was one of the most successful banquet ever given by the alumni.

Little Boy Injured.

Joseph Burby, aged 7 years, living with his uncle, Dennis Murphy near Eau Claire fell from a tree late yesterday afternoon and broke both bones in his left fore-arm and dislocated and broke the same arm at the elbow. Dr. Tutton of this city was called and reduced the fractures.

SOCIETY AND PERSONAL

Miss Agnes Robinson has arrived home to spend her summer vacation. J. O. Rowe and A. Vuylsteke expect to sail from Paris for America, June 10.

Chauncey Nichols is now messenger No. 2 for the Western Union telegraph company.

Stanley Baley left last night for Kenosha, Wis., to spend Sunday with his parents.

M. D. Osgood left today for Dowagiac where he will work in the interest of the Patricians.

J. A. Simon will leave tonight for Chicago where he will meet his New York manager tomorrow.

Prof. Ayers Whitehead of Manistee arrived in the city last night on account of the death of his mother.

Editor J. N. Reed of the Banner Register left last evening for Normal, Ill., and will return with his wife, who has been visiting at that place.

South Haven Tribune: Attorney A. L. Hammond, of Benton Harbor, is in the city looking after business in connection with the firm of Hammond, Hammond & Bessey.

Capt. Riley Phillips, who has been ill for some time past at Lacota, this state, is reported much worse. Capt. Phillips has been for years a trusted employe of the Graham & Morton company.
